## **Study Skills Tips: Ways To Stay Engaged**

### **With Professors**

Most of our professors have chosen to use Zoom to keep the feeling of meeting as a class. While you are meeting, be sure to utilize the time with your professors. Feel free to ask questions. Figure out the best mode of communication with your professor and be sure to use it when possible (Zoom, email, Canvas, etc).

### **With Classmates**

Technology has provided many ways to stay in contact with fellow students (Email, Phone call/text, Canvas, Google Hangouts, etc)! Reach out to other students with questions or as accountability. Take the time to also check up on students who you noticed may have had more difficulty with the course to see if they are having any complications with the transition and offer ways to help in your capacity.

### **Check Your Email**

Online communication will be increasing during this time, so be sure to constantly check your student email and your Canvas account for any class or school updates.
